

ThorPak[®]

Battery Pallet System

Intelligent transport solutions
for every **battery status**.

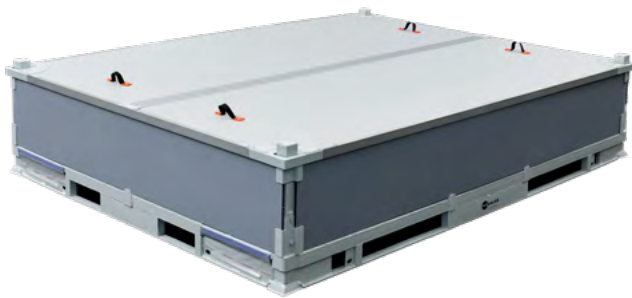

The **three expansion stages** at a glance

ThorPak[®]

Battery Pallet

The solid base : The cost-effective basic solution for transporting status green and end-of-life batteries. With its robust design and integrated safety features, it forms the foundation of the modular system.

ThorPak[®]

Battery Pallet Box
LP903

The flexible all-rounder: The first expansion stage expands the basic pallet into a UN-certified box. With removable side walls and lid, it is perfect for more demanding transportation tasks.

ThorPak[®]

Battery Pallet Box
LP903 LP904 LP905

Maximum safety: The complete solution with SwagBag (non-flammable / non-conductive inner packaging) meets the highest safety standards and offers maximum flexibility for all transportation requirements.

Revolution in battery transportation: one system for all requirements

In the dynamic world of battery logistics, transportation requirements change frequently and quickly. The ThorPak battery pallet system has been developed to meet precisely this challenge. **It flexibly transforms from a robust transport pallet for end-of-life batteries to a fully-fledged UN-certified box.**

Box must be lashed down with four suitable straps when loaded. This unique modularity not only enables considerable cost savings, but also offers maximum flexibility in day-to-day use.

**Instead of investing in different systems,
ThorPak grows with your requirements.**

Why think modular?

Your transport requirements are as individual as your company. The ThorPak battery pallet system adapts – not the other way around. This flexibility means:

- **No overinvestment** in special transport solutions
- **Optimal utilization** of available resources
- **Quick adaptation** to new requirements
- **Reduction of storage space** for various packaging systems

Datasheet

	ThorPak Battery Pallet	ThorPak Battery Pallet Box LP903 UN 4N2/Y1000/S/24CN/C311209	ThorPak Battery Pallet Box LP903 LP904 LP905 UN 4N2/Y1000/S/24CN/C311209
